Selections & Materials

The Look Book

Twenty-two residences, finished in the Japandi line.

Phoenix. Completion October 2027.

THE IDEA

A finished home,
chosen the way you
live in it.

Japanese tranquility, Scandinavian minimalism, Sonoran serenity. Every residence begins complete — wide-plank white oak, hand-troweled plaster, honed stone, quiet concealed light. Three collections to choose between, and a set of commissions that go further still.

Depth over display. Substance over spectacle.

A respite from the noise.

Japandi is a single idea — Japanese tranquility and Scandinavian minimalism, blended into one quiet whole. We marry it to the warmth and light of the Sonoran desert, then let four principles shape every room: how it is made, how it is planned, where it is jewelled, and how it is warmed. The result is a place where the world finally goes quiet.

Wabi-sabi

JAPANESE • IMPERFECTION

Beauty in the imperfect, the aged, the made-by-hand.

In the home — honed stone, never polished; hand-glazed zellige; troweled plaster; brass and bronze meant to patina.

Karesansui

JAPANESE • THE DRY GARDEN

The raked-gravel garden: stillness, negative space, the borrowed view.

In the home — raked decomposed granite, placed basalt, an agave; Camelback borrowed beyond.

Kintsugi

JAPANESE • THE GOLDEN SEAM

The break repaired in gold; the seam made precious, the history kept.

In the home — one gold-veined stone or brass-inlaid threshold. The seam is the story.

Hygge

DANISH • WARMTH

Cozy contentment — candlelight, wool, the hearth, the gathered hour.

In the home — a fire at the centre, light that dims to candle, layered wool and linen, a reading nook.

THE MOOD BOARD

One feeling, twenty-two personalities.

Warm light on pale oak. Plaster that shifts through the day. The materials, the metals, and the palette — the quiet language every home is built from.

THE MATERIAL PALETTE

The specification, in true material.

Every surface, named and sampled. Slabs and tiles are approved in person at your appointment.

White oak, pale

Wide-plank • matte oil • the base

Charred oak • yakisugi

Shou-sugi-ban • the dark anchor

Plaster, warm-white

Hand-troweled lime • walls

Plaster, cool greige

Hand-troweled • the cool note

Travertine, silver-grey

Vein-cut • honed • cool stone

Basalt, honed

Volcanic grey • floor + feature

Limestone, honed

Warm cream • the single warm stone

Zellige, weathered white

Hand-glazed • backsplash, sparingly

Glazed tile, greyed-olive

Heath matte • the muted green

Belgian linen, oatmeal

Drapery + upholstery

Blackened steel

Matte • screens + hardware

Aged bronze

Oil-rubbed, cast • the lead metal

THE METAL PROGRAM

One metal story, the whole residence.

Three depths, one family. Blackened steel grounds the architecture, natural brass lights a single point in each room, and dark-patina bronze bridges between them — the warm, textured middle that carries the eye from one to the other. Cool to warm, matte to bright, the three climb together so every fitting reads as one quiet story.

Blackened steel

THE ARCHITECTURE • RECEDES

The cool, near-black base. Structural frames, steel screens and the fittings meant to disappear — it grounds the room and lets the others speak. Dornbracht Dark Platinum • Buster + Punch Gunmetal.

Dark-patina bronze

THE BRIDGE • WHERE YOU TOUCH

The warm-dark middle voice — the metal of the hand. Levers, faucets and sand-cast pulls, patinated deep so they carry warmth from steel toward brass, with the most texture of the three. Rocky Mountain silicon bronze • Buster + Punch Smoked Bronze.

Natural brass

THE JEWEL • ONE PER ROOM

The single bright accent. One unlacquered-brass moment per residence — a switch, a pull, a pendant — left bare to warm to a honeyed patina. Waterworks Unlacquered Brass • Buster + Punch Brass.

Even the drains, flush plates and shower clips match — the detail most homes miss.

THE COLLECTIONS

Three ways to finish a residence.

The same home, taken to three depths. One language runs through all of it — Japanese calm and Scandinavian restraint, warmed by Sonoran light — and only the richness of the materials changes from one collection to the next. Each is offered in two palettes, First Light or Last Light.

Kanso

simplicity

INCLUDED IN EVERY
RESIDENCE

The baseline is the point. Wide-plank white oak, hand-troweled plaster, honed stone, concealed warm light. A complete Japandi home, standard.

DuChâteau • Sub-Zero • Wolf •
Dornbracht • Rocky Mountain • Clé •
Lutron.

Shibui

understated refinement

THE CONSIDERED UPGRADE

More of everything. Bespoke oak, Italian lime plaster, book-matched stone, hand-woven shades, tunable circadian light.

Adds Waterworks • Gaggenau • Miele •
Bulthaup • Apparatus • Allied Maker •
Hartmann&Forbes.

Miyabi

refined elegance

BESPOKE • AND À LA CARTE

A commission. Rift-sawn oak, single-block book-matched stone, carved-stone basins, commissioned light. Then the enhancements.

Adds Henrybuilt • Carlisle • Sun Valley
Bronze • Aria Stone Gallery •
Waterworks Masterclass.

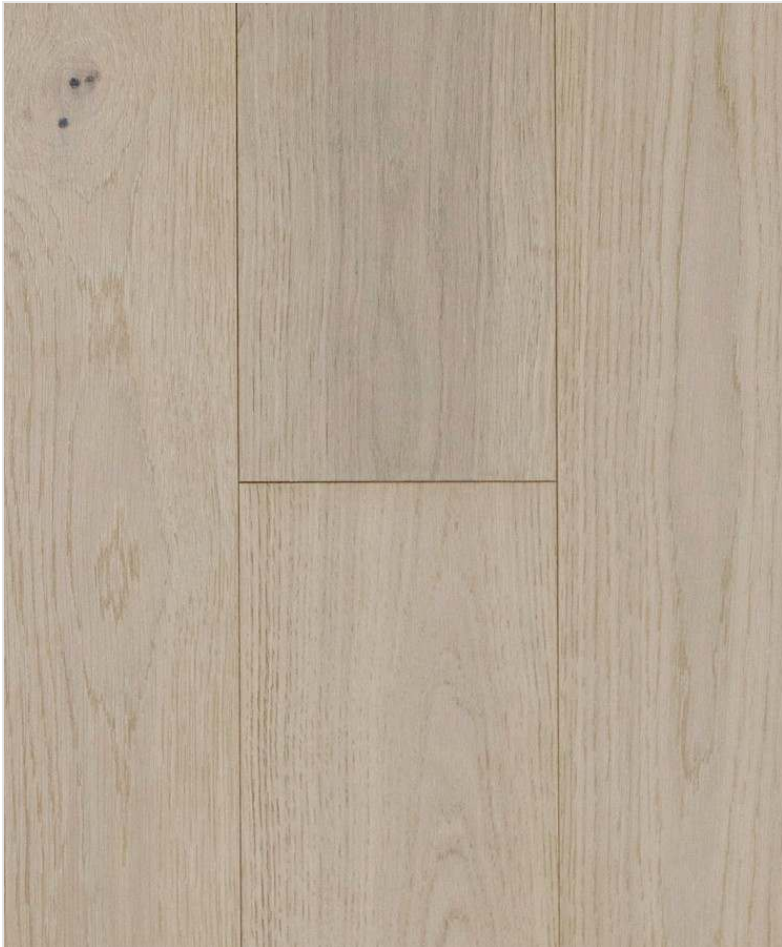

THROUGHOUT • THE FLOOR

The floor underfoot.

One wide-plank European white oak, matte and quiet — the calm Japandi ground every residence is finished on.

Kanso

SIMPLICITY • INCLUDED

DUCHÂTEAU

Château • Natural

EGRNAT3-1 • 7.5" European white oak

Wide European oak, no orange, matte — the calm default underfoot.

FINISHES

Natural

Fumed

Charred

INCLUDED IN EVERY RESIDENCE

THROUGHOUT • THE FLOOR

Warmer, wider — oak or stone.

Heirloom oak and honed desert stone; the floor taken to more depth, three ways.

Shibui

REFINEMENT • UPGRADE

DINESEN

Oak • Natural Oil

Long-board European oak

Heirloom-grade oak, soft oiled warmth — restraint with pedigree.

FINISHES

Natural

Fumed

Charred

EXQUISITE SURFACES

Charente Clair

Honed French limestone

Soft warm desert-stone; honed limestone reads Sonoran, never rustic.

FINISHES

Honed

Tumbled

Aged

EXQUISITE SURFACES

Normandie • Natural

Undulated wide-plank French oak

Wide-plank, quietly textured oak — warm and architectural.

FINISHES

Natural

Fumed

Charred

THROUGHOUT • THE FLOOR

The commissioned floor.

Room-length single-tree boards and gallery-grade stone, selected and signed off per residence.

Miyabi

REFINED ELEGANCE • COMMISSION

EXQUISITE SURFACES Mediceis • Refine

Antique-style honed French limestone

Old-World limestone calm — the elevated desert-warm stone floor.

FINISHES

Honed

Tumbled

Aged

CLÉ Lapidary • Honed Travertine

Plain honed beige field

A plain honed beige-travertine field — warm, quiet, no pattern; the elevated desert-warm stone floor.

FINISHES

Honed

Tumbled

Aged

DINESEN Douglas • Extra-Wide

Room-length single-tree planks

Single-tree boards, soft warm patina — the commission-grade floor.

FINISHES

Natural

Fumed

Charred

À la carte — the commission

Top-tier floors are commissioned — Dinesen Douglas and Clé Lapidary are made-to-order with project-specific board selection, lengths and finish, signed off per residence.

THROUGHOUT • THE WALL

The walls, warm-white.

Troweled lime-clay that holds the desert light without a hint of sheen — the quiet plaster baseline on every wall.

Kanso

SIMPLICITY • INCLUDED

PORTOLA PAINTS

Brooks • Roman Clay

Troweled lime-clay

Matte troweled clay holds desert light without sheen — the warm-white baseline.

FINISHES

Warm White

Bone

Clay

INCLUDED IN EVERY RESIDENCE

THROUGHOUT • THE WALL

Plaster, wood, stone.

A feature plaster with movement, an oiled-oak slat wall, or true marmorino — three ways to add depth.

Shibui

REFINEMENT • UPGRADE

PORTOLA PAINTS

Table Linen • Roman Clay

Lime-clay feature

Earth-toned troweled plaster with organic depth for a single feature wall.

FINISHES

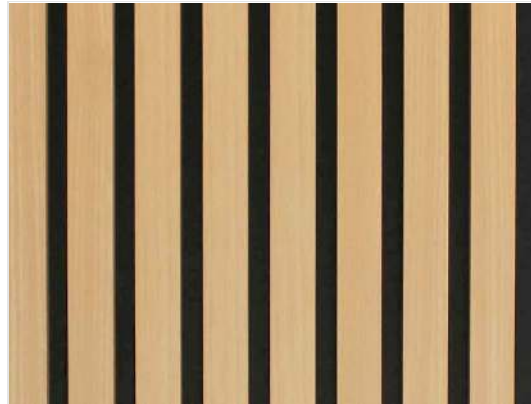

Warm White

Bone

Clay

WOODSON & BROS.

Oiled Oak • Slat Panel

Natural-oil oak

Warm oiled-oak slat — Scandinavian rhythm, Sonoran warmth, no gloss.

FINISHES

Natural

Fumed

Charred

VASARI

Marmorino • Natural White

Lime + marble, fine-sand

True lime-and-marble marmorino, breathable stone texture — quiet architectural upgrade.

FINISHES

Warm White

Bone

Clay

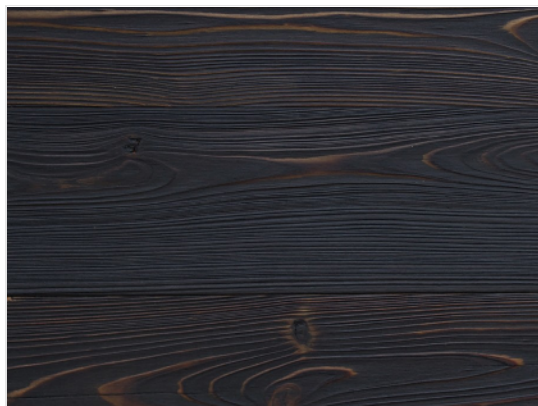

THROUGHOUT • THE WALL

The artisan wall.

Charred cypress, natural stone, and burnished Venetian lime — hand-applied, the precious gesture.

Miyabi

REFINED ELEGANCE • COMMISSION

RESAWN TIMBER
KURO • Shou Sugi Ban

Charred cypress, T&G

Authentic yakisugi charred cypress — the precious Japanese gesture, zero-VOC.

FINISHES

Natural

Fumed

Charred

SALVATORI
Plissé • Crema d'Orcia

Fluted honed limestone

Elisa Ossino's fluted limestone — a quiet vertical rhythm in warm cream; architectural minimalism, not lodge stone.

FINISHES

Honed

Tumbled

Aged

MASTER OF PLASTER
Venetian Lime

Slaked lime + marble dust

Aged slaked-lime and marble Venetian — burnished warm-white, no acrylics.

FINISHES

Warm White

Bone

Clay

À la carte — the commission

Charred-wood, natural stone and Venetian lime are bid per project — custom-tinted and hand-applied by certified artisans, priced on wall area at quote.

SURFACES • THE TILE

The quiet tile.

A chalky weathered-white zellige — light-catching, hand-glazed, irregular; pure Japandi calm with desert warmth, the backsplash default.

Kanso

SIMPLICITY • INCLUDED

CLÉ

Zellige Terracotta • Weathered White

4x4 hand-glazed

Chalky off-white zellige, light-catching irregular surface — pure quiet warmth.

FINISHES

Weathered
White

Unglazed

Bone

INCLUDED IN EVERY RESIDENCE

SURFACES • THE TILE

Tonal depth, three ways.

A greige zellige, a smoked-olive bejmat, or a honed-stone mosaic — the tile taken cooler, moodier, or stonier.

Shibui

REFINEMENT • UPGRADE

ZIA TILE

Casablanca • Zellige

4x4 handmade

Tonal greige zellige, perfectly-imperfect — a quieter counterpoint to the white.

FINISHES

Greige

White

Smoke

CLÉ

Cindered Olive • Bejmat

2x6 glazed brick

Olive-to-charcoal glaze on traditional bejmat — tonal depth and moodiness.

FINISHES

Cindered
Olive

Charcoal

Moss

CLÉ

Lapidary • Beige Travertine

Rough-cut honed mosaic

Chiseled honed-stone mosaic, raw edges — warm desert stone, Scarpa-quiet.

FINISHES

Honed

Tumbled

Aged

SURFACES • THE TILE

The artisan tile.

Hand-painted terracotta and refined zellige hexagons — scarce, hand-made, installer-grade.

Miyabi

REFINED ELEGANCE • COMMISSION

CLÉ
Zellige • Weathered White

2" hand-glazed

A single chalk-white built from dozens of shades — handmade tonal variation, zero pattern, pure quiet.

FINISHES

Terracotta

Charcoal

White

CLÉ
Riverbed • Zellige Hex

3.5x4 hand-glazed

Hex format in warm desert tans — the most Sonoran of the zelliges.

FINISHES

Riverbed Tan

Sand

Umber

CLÉ
Weathered White • Zellige Hex

3.5x4 hand-glazed

The Kanso white reworked into a refined hex — elevated geometry, flagship bath.

FINISHES

Weathered White

Bone

Unglazed

À la carte — the commission

Tabarka and Clé both run custom glaze and color matches at commission — priced per project on a submitted glaze sample and square-footage, with batch minimums.

HARDWARE • LEVERS & PULLS

The hand details, included.

One knurled lever and a matching pull, on every door and drawer — the metal you actually touch, finished to your palette.

Kanso

SIMPLICITY • INCLUDED

EMTEK

Select • Knurled Lever

Straight-knurled bar on a disk rose

Why — the knurl quietly echoes the home's metal language, on a lever that simply works on every door.

FINISHES

Satin Brass

Flat Black

Oil-Rubbed

Satin Nickel

EMTEK

Select • Knurled Pull

Cabinet & appliance bar, matched

Why — the same knurl on every drawer; one quiet hand-feel from door to cabinet, included.

FINISHES

Satin Brass

Flat Black

Oil-Rubbed

Satin Nickel

HARDWARE • LEVERS & PULLS

The editorial hand.

Three editorial directions — a knurled bar, a faceted lever, and a sculptural blade. Each a matched lever and pull, warm and tactile. Choose a set, or mix across them.

Shibui

REFINEMENT • UPGRADE

BUSTER + PUNCH • SMOKED BRONZE

Linear Lever

knurled bar

Cross-Knurled Pull

cabinet & door

Solid knurled bar, weighty in the hand — the editorial set, one knurl from door to drawer.

FINISHES

Smoked Bronze

Brass

Black

Steel

LO & CO INTERIORS • BRONZE

Intersect Lever

faceted blade

Intersect Pull

cabinet & door

A quiet architectural notch where bar meets post — joinery-craft warmth in oiled bronze; smooth where B+P is knurled.

FINISHES

Bronze

Aged Brass

Black

Brass

OLIVARI • SUPERBRONZE

Lama L Lever

sculptural blade

Lama Pull

cabinet & door

A 1950s Gio Ponti blade — razor-thin and signed; Italian design pedigree, smooth where B+P is knurled.

FINISHES

SuperBronze

Matt Black

Copper

Gold

HARDWARE • LEVERS & PULLS

Pared to the essence.

Three ways to the essence — a fine diamond knurl, a pure smooth cylinder, or hand-stitched leather. Each a matched lever and pull, finished to deepen with the years.

Miyabi

REFINED ELEGANCE • COMMISSION

JOSEPH GILES • ANTIQUE BRASS

Montgomery Lever

diamond knurl

Montgomery Pull

cabinet & door

The knurl refined to its most precise form, cast in solid bronze — a Bauhaus line elevated.

FINISHES

Antique Brass

Dark Bronze

Black

Copper

FORMANI • BRONZE

ONE Lever

smooth cylinder

ONE Pull

cabinet & door

A pure cylinder, perfectly proportioned, nothing added — Piet Boon's benchmark in quiet minimalism.

FINISHES

Bronze

Light Bronze

Satin Black

Satin Gold

TURNSTYLE DESIGNS • FINE ANTIQUE

Barrel Stitch Lever

wrapped leather

Barrel Stitch Pull

cabinet & door

Saddle-stitched leather over antique brass — the warmest, most tactile hand in the book, a bespoke, hand-finished commission.

FINISHES

Chestnut

Tan

Chocolate

Black

À la carte — the commission

A bespoke patina or a one-off cast — knurl, lever profile, and finish made to match your faucets and lighting. Through the Lief atelier.

THROUGHOUT • THE HINGED DOOR

The hinged door.

The swinging leaf, included on every opening — a flush solid white-oak slab, the warm-minimal default the whole palette tunes to.

Kanso

SIMPLICITY • INCLUDED

LUX DOORS

Blanco • Flush White Oak

Solid white-oak slab
INTERNAL • HINGE

A flush white-oak slab, zero ornament — the baseline warm-minimal leaf on every opening.

FINISHES

White Oak

Fumed Oak

Walnut

Matte Black

INCLUDED IN EVERY RESIDENCE

THROUGHOUT • THE HINGED DOOR

Refined, on the hinge.

Three hinged upgrades, conservative to expressive — a vertical-grain flush leaf, a frameless glazed leaf, and a CNC-routed curve.

Shibui

REFINEMENT • UPGRADE

ETO DOORS

Hermosa • White Oak

Vertical-grain, solid-core
INTERNAL • HINGE

A vertical-grain white-oak flush leaf clean and quiet — the conservative upgrade, warm and architect-spec.

FINISHES

White Oak

Fumed Oak

Walnut

Matte Black

BELLDINNI

Alba • Frameless Flush

Pecan-nutwood, frameless
INTERNAL • HINGE

A frameless leaf with frosted-glass reeding and a concealed reveal — the moderately-designed step up.

FINISHES

White Oak

Fumed Oak

Walnut

Matte Black

PEENAKIRESINCRAFT

Japandi Style Fluted Wood Door

Light oak, CNC-routed
INTERNAL • HINGE

A CNC-routed sweeping curve with a reeded inset on a white-oak leaf — the highly-designed hinge, sculpture on a true swing door.

FINISHES

White Oak

Fumed Oak

Walnut

Matte Black

THROUGHOUT • THE HINGED DOOR

The commission hinge.

Made-to-measure swing doors — a frameless stone-faced leaf, a rift-cut wood door, and a carved tatami-relief statement.

Miyabi

REFINED ELEGANCE • COMMISSION

RIMADESIO
Moon • Hinged

Stone-faced, frameless
INTERNAL • HINGE

A frameless leaf on a minimal aluminium reveal, faced in stone within walnut boiserie — the restrained commission hinge, seamless and warm.

FINISHES

White Oak

Fumed Oak

Walnut

Matte Black

LAURAMERONI
Rift • Hinged

Rift-cut wood, full-height
INTERNAL • HINGE

A rift-cut wood leaf in a minimal reveal — Laurameroni craft, the restrained-but-rich commission swing.

FINISHES

White Oak

Fumed Oak

Walnut

Matte Black

LAURAMERONI
Tatami • Carved Pivot

Three-dimensional relief
EXTERNAL • CARVED PIVOT

A tatami-relief leaf carved in rare wood — sculpture as threshold, the apex commission.

FINISHES

White Oak

Fumed Oak

Walnut

Matte Black

À la carte — the commission

All three leaves are made-to-order — essence, glazing and concealed jamb or pivot, specified per opening.

THROUGHOUT • THE SLIDING DOOR & SCREEN

The sliding door.

The included space-saver — a flush oak leaf that slides into the wall for closet and bath, the door that takes no swing.

Kanso

SIMPLICITY • INCLUDED

LUX DOORS

Flush Oak • Pocket

Concealed pocket frame
CLOSET / BATH • POCKET

A flush oak leaf that vanishes into the wall — the included space-saver, no swing required.

FINISHES

White Oak

Fumed Oak

Walnut

Matte Black

INCLUDED IN EVERY RESIDENCE

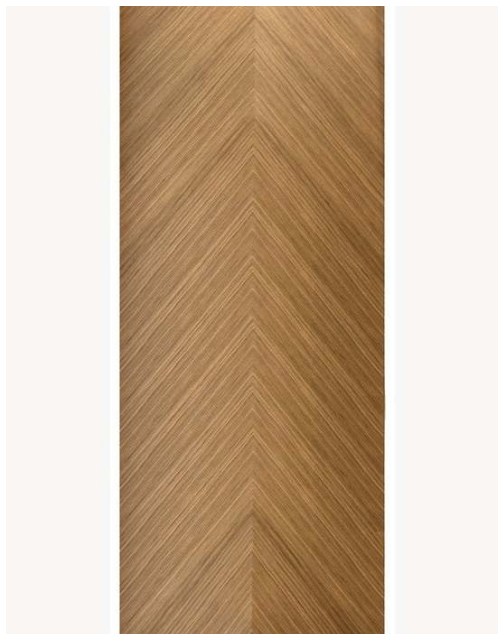

THROUGHOUT • THE SLIDING DOOR & SCREEN

Slide, fold, filter.

Three sliding upgrades — an exposed-track slider, a louvered bi-fold, and an expressive chevron pivot-slide.

Shibui

REFINEMENT • UPGRADE

PAMPERHAUS Oak • Exposed-Track Slider

Top-hung barn track
PASSAGE • BARN SLIDER

A flush oak leaf on an exposed luxe track — the conservative slider, hardware as a quiet feature.

FINISHES

RUSTIC LUXE Louvered Oak • Bi-Fold

Slatted, ventilated
PANTRY / CLOSET • BIFOLD

A slatted, ventilated oak bi-fold — the breathing door for pantry and wardrobe, folded flat.

FINISHES

RUSTIC LUXE Chevron • Oak Inlay

Track + pivot hardware
PASSAGE • SLIDING PIVOT

A chevron-inlay leaf on track-and-pivot hardware — the most expressive slide in the tier, craft you read across the room.

FINISHES

THROUGHOUT • THE SLIDING DOOR & SCREEN

The commission screen.

Made-to-measure sliding screens — a flush integrated slider, a warm shoji, and a kumiko-relief moving wall.

Miyabi

REFINED ELEGANCE • COMMISSION

LUALDI Sliding 50 • Flush Oak

Top-hung, flush
INTERNAL • FLUSH SLIDER

*A flush oak leaf top-hung on a concealed track,
gliding past the wall — the quiet commission slider.*

FINISHES

IMOSHEN Kumiko Shoji • Sliding Screen

Walnut kumiko lattice
DIVIDER • SHOJI SLIDER

*A solid-walnut kumiko lattice sliding screen —
filtered light and joinery craft, the warm Japandi
divider.*

FINISHES

LAURAMERONI Tatami • Kumiko Relief

Sliding 3D relief
DIVIDER • KUMIKO RELIEF

*A kumiko-relief sliding screen in rare wood — the
apex divider, geometry that breathes light.*

FINISHES

À la carte — the commission

All three screens are made-to-order — track, kumiko lattice and panel infill, specified per opening.

THROUGHOUT • THE PIVOT

The hinge, concealed.

A fully concealed, three-axis adjustable hinge that vanishes into the jamb — the quiet baseline for flush doors.

Kanso

SIMPLICITY • INCLUDED

AGB

Eclipse 3.0 Concealed

Matt Antique Brass

CONCEALED

*Fully concealed, 3-axis adjustable, vanishes into the jamb
— the quiet baseline for flush doors.*

FINISHES

Antique Brass

Bronze

Dark Bronze

Black

INCLUDED IN EVERY RESIDENCE

THROUGHOUT • THE PIVOT

Felt in the swing.

Three solid-bronze butts, plain to architectural — a plain barrel, a concealed-bearing upgrade, and a geometric square-knuckle, so a visible hinge reads as warm desert metal.

Shibui

REFINEMENT • UPGRADE

ROCKY MOUNTAIN Plain Bearing Hinge

HNG4 • Silicon Bronze
BUTT HINGE

Solid bronze, visible knuckle — the honest baseline for everyday doors. You're paying for metal, not mechanism.

FINISHES

Antique Brass

Bronze

Dark Bronze

Black

ROCKY MOUNTAIN Concealed-Bearing Butt

HNG4.5A • Silicon Bronze
BEARING BUTT

A bearing sealed inside a clean barrel: heavier doors swing silent and last decades. The step-up buys smoothness and a seamless line.

FINISHES

Antique Brass

Bronze

Dark Bronze

Black

SUN VALLEY BRONZE Square-Knuckle Hinge

BH-SQ4040 • Burnished Bronze
SQUARE KNUCKLE

A machined square knuckle turns a functional part into a deliberate detail. The top tier buys design — for hinges meant to be seen.

FINISHES

Antique Brass

Bronze

Dark Bronze

Black

THROUGHOUT • THE PIVOT

Jewellery for the door.

Hand-finished British bronze butts and pivots, and a self-contained architectural pivot — the hinge as a luxury detail.

Miyabi

REFINED ELEGANCE • COMMISSION

JOSEPH GILES Washed Bearing Butt

HG1003 • Dark Bronze
BEARING BUTT

British solid brass, traditional washer + bronze bearings + matching screws — jewellery-grade.

FINISHES

Antique Brass Bronze Dark Bronze Black

JOSEPH GILES Pivot Hinge Set

PV1016 • Antique Brass
PIVOT

A hand-finished solid-brass feature pivot for millwork — pivot motion as a quiet luxury.

FINISHES

Antique Brass Bronze Dark Bronze Black

FRITSIURGENS System M+ Pivot

Self-contained, PVD Black
PIVOT

A self-contained in-door pivot, no floor closer, 44–1,100 lb — the architectural statement-door pivot.

FINISHES

Antique Brass Bronze Dark Bronze Black

À la carte — the commission

Joseph Giles HG1003 and PV1016 are made-to-order British bronze (DBZW/MABW to match the program); Fritsurgens M+ is configured per door leaf weight and offset, quoted as a set.

THE KITCHEN • CABINETRY

Handleless, in oak.

German true-handleless gola in warm oak veneer — flush, minimal-reveal, repeatable across every residence; the cleanest Japandi base front.

Kanso

SIMPLICITY • INCLUDED

LEICHT

Contino • Gola

Handleless oak veneer

GOLA

A gola channel hides the pull in a continuous reveal — flush, fingerprint-free, repeatable across all 22 homes. Included as the cleanest handleless start, not a compromise.

FINISHES

Oak

Fumed Oak

Smoked

INCLUDED IN EVERY RESIDENCE

THE KITCHEN • CABINETRY

Three handleless directions.

A chamfered integrated grip, an Italian oak slab, or a system of subtraction — flush planes, warmer grain.

Shibui

REFINEMENT • UPGRADE

LEICHT Avance • 35° Chamfer

Handleless, matte warm-neutral
CHAMFER GRIP

An angled grip machined into the front edge — no rail, no hardware, a pure flush plane. The conservative upgrade: a cleaner line than the gola, nothing more.

FINISHES

Oak

Fumed Oak

Smoked

POLIFORM Alea Pro

Handleless oak slab
OAK SLAB

An Italian handleless slab in real warm oak — thicker fronts, tighter tolerances. The step up buys material and craft: Sonoran grain, not a veneer look.

FINISHES

Oak

Fumed Oak

Smoked

MOLTENI&C • DADA INDada

System of subtraction
MINIMAL-REVEAL

Every formal element stripped to a flush, minimal-reveal plane. Top of the tier — you pay for Italian design rigor, the most considered front here.

FINISHES

Oak

Fumed Oak

Smoked

THE KITCHEN • CABINETRY

The atelier kitchen.

Single-trunk veneer, fumed and figured oak, integrated millwork — hand-built and one-of-one.

Miyabi

REFINED ELEGANCE • COMMISSION

BULTHAUP b3

13mm hand-selected veneer
VENEER SYSTEM

A rigorous German system, hand-arranged single-trunk veneer, nothing superfluous. The entry to bespoke — you pay for precision, not ornament.

FINISHES

Oak

Fumed Oak

Smoked

HENRYBUILT Kitchen System

Seattle-built, integrated pulls
INTEGRATED PULL

American atelier, built to the millimetre with integrated pulls in warm rift/fumed oak. The step up buys craft and integration — warmer, more tactile.

FINISHES

Oak

Fumed Oak

Smoked

EGGERSMANN unique

Single-trunk figured oak
SINGLE-TRUNK

Fronts, sides and back from a single trunk, hand-finished bevels — a precious oak monolith. The apex: one-of-one material matching nothing else gives.

FINISHES

Oak

Fumed Oak

Smoked

À la carte — the commission

All three Miyabi lines are made-to-order — single-trunk veneer matching, fume depth and integrated hardware, configured per kitchen.

SURFACES • THE STONE

Pale, honed, quiet.

A soft fossilised French limestone, honed to an eggshell matte — desert-washed, plaster-quiet; the counter that disappears into the palette.

Kanso

SIMPLICITY • INCLUDED

ARTISTIC TILE

Crema Luna • Limestone

French honed
LIMESTONE

Soft fossilised French limestone honed to an eggshell matte — it reads as desert-washed plaster and disappears into the palette. Included because the quietest counter lets everything else speak.

FINISHES

Honed
Limestone

Quartzite

Soapstone

Calacatta

INCLUDED IN EVERY RESIDENCE

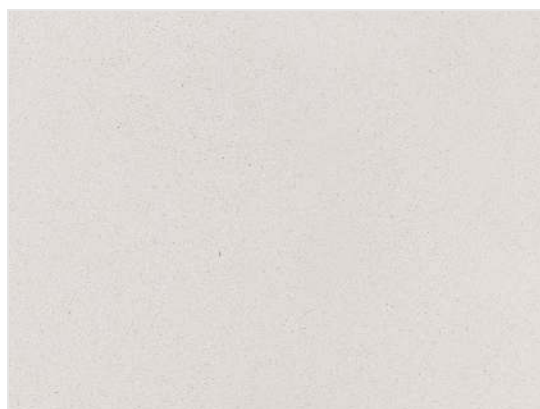

SURFACES • THE STONE

Limestone, quartzite, soapstone.

A grey-white limestone, an etch-proof quartzite, and a carve-able soapstone — quiet stone for hard-working runs.

Shibui

REFINEMENT • UPGRADE

ARTISTIC TILE
Balcan White • Limestone

Honed
LIMESTONE

A cooler grey-white limestone, honed, subtle texture and no busy veining. The restrained upgrade — a Scandinavian-pale surface that stays calm under daily use.

FINISHES

Honed
Limestone

Quartzite

Soapstone

Calacatta

ARTISTIC TILE
White Quartzite

Honed, etch-proof
QUARTZITE

Natural quartzite, honed and etch-proof — wine, citrus and coffee leave no mark. The step up buys durability: a hard-working run that still reads delicate.

FINISHES

Honed
Limestone

Quartzite

Soapstone

Calacatta

ARTISTIC TILE
Brazilian Soapstone

Honed, non-porous
SOAPSTONE

Non-porous soapstone with the sink and drainboard carved from one block — acid-proof, deeply tactile. The top of the tier buys craft, not just a slab.

FINISHES

Honed
Limestone

Quartzite

Soapstone

Calacatta

SURFACES • THE STONE

The book-matched slab.

A vein-cut travertine waterfall, book-matched Calacatta, and a rare gallery quartzite — selected by the lot.

Miyabi

REFINED ELEGANCE • COMMISSION

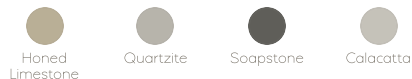

ARTISTIC TILE

Bianco Navona • Travertine

Vein-cut, honed-filled
TRAVERTINE

Roman vein-cut travertine, honed and filled, run as a waterfall island — warm horizontal grain, the Sonoran-sediment heart of the room. Quiet stone given architectural weight.

FINISHES

ARIA STONE GALLERY

Mont Blanc • Quartzite

3cm honed, single-lot
QUARTZITE

A rare gallery-grade slab hand-selected by the lot — warm taupe quartzite, durable and etch-resistant. The step up buys a one-of-a-kind surface that still holds back.

FINISHES

ARTISTIC TILE

Calacatta Caldia • Marble

Book-matched, honed
MARBLE

The book-matched showpiece — two slabs mirrored into a single brecciated movement that reads as canyon strata. The apex: a dramatic, mirror-matched statement.

FINISHES

À la carte — the commission

Miyabi slabs are reserved by the lot — book-matched layouts and integral carved sinks, fabricated to template per residence.

THE KITCHEN • REFRIGERATION

Cold, concealed.

A narrow integrated refrigerator column that vanishes behind a flush oak panel — refrigeration as pure cabinetry, no hardware read.

Kanso

SIMPLICITY • INCLUDED

PANEL-READY

SUB-ZERO

Designer Column

DEC3050R • 30" panel

FRIDGE COLUMN

A 30-inch integrated column that takes a custom oak panel and vanishes into the cabinetry run — no stainless, no hardware read. Included because cold should disappear, not announce itself.

FINISHES

Panel-Ready

Stainless

Glass Door

INCLUDED IN EVERY RESIDENCE

THE KITCHEN • REFRIGERATION

Wider, taller columns.

A 24-inch panel column, a quiet 30-inch all-fridge, and a 36-inch column with internal dispenser — flush to the run.

Shibui

REFINEMENT • UPGRADE

PANEL-READY

SUB-ZERO Column + Dispenser

DEC3O5ORID • 30"
DISPENSER COLUMN

A panel-ready fridge column with the water and ice dispenser hidden inside — no stainless cutout breaking the cabinet line. The step up buys the dispenser without the visual compromise.

FINISHES

Panel-Ready

Stainless

Glass Door

PANEL-READY

MIELE MasterCool Column

K 2802 Vi • 30" panel
ALL-FRIDGE

Miele's flush all-fridge — MasterFresh cooling and push2open behind a matching panel. Choose it where you want refrigeration only, dead-quiet and fully concealed.

FINISHES

Panel-Ready

Stainless

Glass Door

PANEL-READY

SUB-ZERO Freezer Column

DEC3O5OFI • 30"
FREEZER COLUMN

A dedicated panel-ready freezer column with built-in ice — paired flush beside the fridge for a true full-size cold run, no under-counter compromise.

FINISHES

Panel-Ready

Stainless

Glass Door

THE KITCHEN • REFRIGERATION

The cold statement.

A one-box integrated fridge-freezer, a pro glass-door vitrine, and a hand-built American glass column — deliberate reveals.

Miyabi

REFINED ELEGANCE • COMMISSION

PANEL-READY

SUB-ZERO Over/Under + Ice

DET305OCIID • 30"
FRIDGE-FREEZER

A full fridge and freezer in one panel-ready tower, ice and dispenser inside — the whole cold function disappears into a single oak-fronted run. The restrained commission.

FINISHES

Panel-Ready

Stainless

Glass Door

PANEL-READY

MIELE MasterCool Flagship

KF 2982 Vi • integrated
INTEGRATED F/F

Miele's flagship integrated cooling — glass-shelved, near-silent, panel-ready to vanish. The step up buys the quietest, most refined concealment in the lineup.

FINISHES

Panel-Ready

Stainless

Glass Door

SUB-ZERO PRO Glass-Door

PRO485OG • 48"
GLASS-DOOR

A pro stainless column with a lit glass door — the one fridge meant to be seen. The apex: a deliberate vitrine that makes refrigeration the statement, not the secret.

FINISHES

Panel-Ready

Stainless

Glass Door

À la carte — the commission

Columns gang side-by-side under a unified Sub-Zero or Miele panel run — fridge and freezer are individual SKUs; budget per-column with custom panel and handle as separate line items.

THE KITCHEN • WINE & BEVERAGE

Wine, integrated.

A dual-zone undercounter wine column that takes a custom oak panel and vanishes into the cabinetry — two temperatures for red and white in a 24-inch slot.

Kanso

SIMPLICITY • INCLUDED

PANEL-READY

SUB-ZERO

Undercounter Wine Storage

DEU245OW • panel-ready

UNDERCOUNTER

A dual-zone undercounter that takes a custom oak panel and vanishes into the cabinetry — two temperatures for red and white in 24 inches. Included because wine should read as cabinetry, not appliance.

FINISHES

Panel-Ready

Stainless

Glass

INCLUDED IN EVERY RESIDENCE

THE KITCHEN • WINE & BEVERAGE

Wine and beverage.

A panel-ready wine column, a beverage centre, and a Miele glass-door cabinet — the bar's working trio, quiet to label-forward.

Shibui

REFINEMENT • UPGRADE

PANEL-READY

SUB-ZERO Designer Wine Column

DEC3050W • panel-ready
WINE COLUMN

A full-height Designer wine column, panel-ready to match the cabinetry — far more bottles than the undercounter, still hidden in the run. The step up buys capacity without breaking the flush line.

FINISHES

Panel-Ready

Stainless

Glass

PANEL-READY

SUB-ZERO Beverage Center

DEU245OBG • panel-ready
BEVERAGE CENTRE

A panel-ready beverage centre with UV-protected glass — sodas, water and mixers behind the same quiet oak face as the wine. Choose it to keep the whole bar concealed.

GAGGENAU 400 Series Single Oven

BO 481 • handleless
BUILT-IN OVEN

Gaggenau's 400-series built-in — motorised side-opening door, cast-stainless gravitas. The reference oven, the step above pro.

FINISHES

Black Glass

Stainless

GAGGENAU 400 • Combi-Steam

BS 455 • steam
COMBI-STEAM

Gaggenau's combi-steam, stacked flush beside the oven — handleless, the wellness mode at the reference tier.

FINISHES

Black Glass

Stainless

À la carte — the commission

The Gaggenau column builds as a flush tall-cabinet run — oven and combi-steam stacked handleless, configured per kitchen.

THE KITCHEN • VENTILATION

The hidden liner.

A pro liner insert that vanishes inside a custom plaster or oak hood — the air handled, the appliance unseen.

Kanso

SIMPLICITY • INCLUDED

WOLF

Pro Ventilation Liner

PL342212 • insert

LINER INSERT

A Wolf stainless liner that disappears inside a hand-troweled plaster or oak hood — pro extraction and lighting, no exposed metal. Included because the air should move, unseen.

FINISHES

Stainless

Plaster

Blackened

Brass

INCLUDED IN EVERY RESIDENCE

THE KITCHEN • VENTILATION

Chimney, glass, ceiling.

A Wolf stainless chimney, a Miele glass canopy, or a Miele flush ceiling extractor — three quiet ways to move the air.

Shibui

REFINEMENT • UPGRADE

WOLF Pro Wall Hood

PW362718 • stainless
WALL CHIMNEY

Wolf's pro stainless wall hood — enclosed liner, infinite-speed blower, the architectural canopy over a wall range. The conservative upgrade: a clean stainless chimney.

FINISHES

Stainless

Plaster

Blackened

Brass

MIELE Glass Canopy Hood

DA 6498 • angled glass
GLASS CANOPY

Miele's angled glass canopy — the lightest visual footprint, near-silent. The step up buys design: glass instead of steel, a sculpted plane over the range.

FINISHES

Stainless

Plaster

Blackened

Brass

MIELE Ceiling Extractor

DA 2818 • flush ceiling
CEILING CASSETTE

Miele's flush ceiling extractor — the hood that disappears into the ceiling plane entirely. The top of the tier: no canopy at all, just clean ceiling.

FINISHES

Stainless

Plaster

Blackened

Brass

THE KITCHEN • VENTILATION

The sculptural hood.

A hand-troweled plaster hood, a blackened-steel canopy on oak, and a pro downdraft — the hood as quiet architecture.

Miyabi

REFINED ELEGANCE • COMMISSION

CUSTOM Plaster Hood

Hand-troweled, tapered
PLASTER

A simple tapered hand-troweled plaster hood over the range — warm-white and minimal, the liner hidden inside.

FINISHES

The reference shower — Tara's handshower, wall outlet and holder in brushed brass. The sculptural warm-metal statement.

FINISHES

Brushed Steel Natural Brass Matte Gold Black

AXOR One Overhead Shower

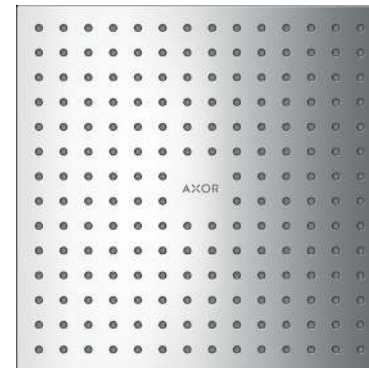

Polished Chrome • overhead
OVERHEAD • FLAT

Barber & Osgerby's One overhead — a slim flat rain disc, the most reductive ceiling form. Design-museum minimalism.

FINISHES

Brushed Steel Natural Brass Matte Gold Black

AXOR Edge Overhead Shower

Polished Chrome • diamond-cut
OVERHEAD • DIAMOND-CUT

AXOR Edge — a diamond-cut square rain panel, a precise architectural plane overhead. The apex statement, machined.

FINISHES

Brushed Steel Natural Brass Matte Gold Black

À la carte — the commission

Every Miyabi shower is made-to-order — overhead, handshower and thermostatic control in your finish, matched to the basin tap and tub filler, quoted through trade.

THE BATH • VANITY & STONE

Cast and correct.

The quiet baseline. Cast ceramic and concrete, honestly priced, beautifully restrained. Everything here is complete and correct, and nothing asks for attention. You step up from here when you want the basin made of stone, not poured into a mold.

Kanso

SIMPLICITY • INCLUDED

DURAVIT
Vero Air

Glazed ceramic
UNDERMOUNT

The disappearing basin. Mounted below the counter so the stone runs unbroken and wipes clean in a single pass. Glazed ceramic is the most durable, lowest-maintenance surface in the program. The right call when the counter should be the statement, not the bowl.

NATIVE TRAILS
Nipomo

NativeStone concrete • Slate
VESSEL

The one bowl that sits above the counter. Hand-cast concrete, warm slate-grey, soft squared edge. Choose it for a single sculptural gesture at the entry tier without the cost of stone.

NATIVE TRAILS
Trough 4819

NativeStone concrete • Slate
TROUGH

One long basin for two. A double vanity gets a single clean channel instead of two bowls, which reads calmer and plumbs for less. Concrete keeps it warm and quiet.

THE BATH • VANITY & STONE

Cut, not cast.

The step into solid stone and built wood. Where Kanzo is cast, Shibui is cut from a block or made by a cabinetmaker. You are paying for material that is quarried and worked, and for form that was drawn rather than standardized. The jump buys permanence and a warmth you can feel underhand.

Shibui

REFINEMENT • UPGRADE

HASTINGS Tricot

Fluted walnut + integrated stone
INTEGRATED

Where the vanity becomes the basin. A fluted walnut cabinet with the stone top and bowl integrated as one piece, so there is no seam to catch. You are paying for Italian cabinetmaking and a made-to-order width, not a stock box. The warmest option in the tier.

LUSSO Levitare

Single-block travertine • ultra-thin
INTEGRATED

Solid travertine, carved thin. A single block of warm Sonoran stone worked to an ultra-thin wall and hung so it floats. The step up from concrete is real material: travertine ages, takes light, and carries the desert palette the way poured stone cannot.

STONE FOREST Lithic

Faceted andesite
VESSEL

The sculptural bowl. Faceted by hand from one piece of andesite, no two planes alike. Choose it for a single quiet sculpture on the counter. It is your entry into solid stone, priced for the bowl alone.

THE BATH • VANITY & STONE

Carved, by name.

The atelier tier. Each basin is carved from a single block by a named design house. The step up from Shibui is not more stone, it is better stone worked further: thinner walls, finer honing, a maker's signature. This is the difference between a stone basin and a commissioned one.

Miyabi

REFINED ELEGANCE • COMMISSION

SALVATORI
Anima

Single-block stone • Carrara
COUNTERTOP

Carved from one block, set on the counter, paired with a Canaletto walnut vanity. The step from Shibui buys a named atelier and stone chosen piece by piece, in finishes from Bianco Carrara through Pietra d'Avola.

STONE FOREST
Ventus

Antique-grey limestone • brass legs
CONSOLE

The stone wash-table. A thin-walled trough in honed antique-grey limestone on aged-brass legs, so it reads as furniture, not plumbing. The most architectural piece in the program, able to hold a room on its own.

SALVATORI
Adda

Ribbed solid stone + walnut
INTEGRATED

The signature. A ribbed solid-stone basin by David Lopez Quincoces, the fluting cut into the block itself. The top of the program: the most worked stone, the finest finish, the clearest maker's hand. Everything below it is quieter by comparison.

À la carte — the commission

Every Miyabi basin is commissioned — carved from a single block by the atelier in your stone and finish, sized to the vanity and fabricated to template per residence.

THE BATH • SOAKING TUBS

A quiet soaking tub.

A single-piece cast monolith in matte volcanic-limestone composite — a quiet oval that reads sculptural, never glossy.

Kanso

SIMPLICITY • INCLUDED

VICTORIA + ALBERT

Barcelona 2 • Soaking Tub

Volcanic limestone, matte

A single-piece cast monolith, a quiet oval — matte skin reads sculptural, not glossy.

FINISHES

Hinoki

Stone

Bronze

À la carte — the commission

The Miyabi tubs are made-to-order — apaiserMarble and Salvatori stone finishes cast to spec, 10–14 week lead.

THE BATH • THE WC

Concealed, rimless, included.

The included WC is wall-hung and concealed-tank — rimless ceramic that wipes in one pass and floats clear of the floor. Restraint at the entry: everything correct, nothing loud. You step up for engineered flushing, designer ceramic, or the integrated washlet.

Kanso

SIMPLICITY • INCLUDED

DURAVIT

ME by Starck

Glazed ceramic • wall-hung
WALL-HUNG • RIMLESS

Philippe Starck's soft-square geometry in clean white ceramic, wall-hung and concealed-tank. Rimless and quick to wipe — the quietly correct baseline the room is built on.

INCLUDED IN EVERY RESIDENCE

THE BATH • THE WC

Engineered, and drawn.

The step into engineered flushing and designer ceramic — a silent TurboFlush, a rimless Kartell, a sculptural Italian bowl. More refinement, more design, a finer glaze.

Shibui

REFINEMENT • UPGRADE

GEBERIT ONE

KeraTect • concealed-tank
WALL-HUNG • TURBOFLUSH

The shrouded TurboFlush rinses rimless and runs quiet, with a KeraTect glaze that stays clean. The step up buys German engineering you mostly don't hear.

LAUFEN Kartell • rimless

Matte white Saphirkeramik
WALL-HUNG • DESIGNER

Starck's rimless Kartell in matte Saphirkeramik — thinner walls, a harder, denser ceramic, a designer profile. The step up buys form and a finer material.

CIELO Shui Comfort

Fine ceramic • Italian
WALL-HUNG • SCULPTURAL

A sculptural Italian bowl, softer and more organic, hand-finished in fine ceramic. The step up buys an Italian maker's line and a warmer, rounder form.

THE BATH • THE WC

Colour, then the machine.

The flagship — a matte-colour designer statement, then the integrated washlets, where the WC cleanses itself and all but disappears. The most engineering and the clearest design.

Miyabi

REFINED ELEGANCE • COMMISSION

LAUFEN
Kartell • matte graphite

Pigmented Saphirkeramik
WALL-HUNG • COLOUR

The Kartell taken to a deep matte graphite — the designer statement made in colour, a pigmented Saphirkeramik. Where Shibui is white, Miyabi is finished in colour.

TOTO
Washlet+ S7

Integrated washlet
WALL-HUNG • WASHLET

The integrated washlet — warm water, heated seat, auto lid, concealed. The WC becomes a bidet. The step up buys Japanese cleansing technology, built in.

TOTO
Neorest WX2

Auto-integrated
WALL-HUNG • FLAGSHIP

Auto-open, auto-flush, self-cleaning — the most engineered WC made, finished to disappear. The top of the program, where the machine becomes invisible.

À la carte — the commission

The Neorest and Washlet are commissioned with your concealed carrier and remote; the Kartell colourway is made to order in your matte finish — quoted through an authorised dealer.

THE BATH • THE GLASS WALL

Clear, frameless, included.

The included enclosure is a single frameless panel on a slim bronze arm — low-iron clear glass, minimal fixings. The shower disappears behind clean glass and the stone does the talking. You step up for texture, a framed line, or the architectural wall.

Kanso

SIMPLICITY • INCLUDED

LUSSO

Modular

Frameless • deep bronze

WALK-IN • FRAMELESS

A single frameless panel on a slim deep-bronze support — low-iron clear glass, the minimal fixings warmed to the metal program. The screen that lets the stone and water speak.

INCLUDED IN EVERY RESIDENCE

THE BATH • THE GLASS WALL

Texture, frame, low-iron.

The step into texture and warmth — reeded glass for privacy, a slim bronze-framed panel, and ultra-clear low-iron. More material, more warmth, a finer edge.

Shibui

REFINEMENT • UPGRADE

FLUTED GLASS Reeded screen

Reeded low-iron
WALK-IN • FLUTED

Vertical fluting softens the light and gives privacy without a curtain — warm, textural, Japandi. The step up buys texture and a quieter threshold.

LUSO Designo

Slim frame • deep bronze
WALK-IN • FRAMED

A slim deep-bronze frame drawn around clear glass — the metal program carried to the shower. The step up buys a warm framed line and a more finished edge.

MATKI EauZone

Low-iron • frameless
WET-ROOM • FRAMELESS

Ultra-clear low-iron glass, frameless, with no green tint — the premium glass that all but vanishes. The step up buys optical clarity and a near-invisible wall.

THE BATH • THE GLASS WALL

Steel, brass, the arch.

The architectural statement — a blackened-steel grid, fluted glass set in brass, a curved seamless arch. Here the glass stops being a screen and becomes architecture.

Miyabi

REFINED ELEGANCE • COMMISSION

CRITTALL Steel grid

Blackened steel-framed glass
SCREEN • ARCHITECTURAL

A blackened-steel grid — the book's steel program made architecture, industrial-minimal and warm against stone. The step up buys a structural, room-defining wall.

LUSSO Opulence

Fluted • brushed brass
SCREEN • FLUTED BRASS

Fluted glass set in a brushed-brass frame — texture and the jewel metal together. The step up buys the warm-brass line and the reeded light.

LUSSO Casa

Curved arch • brushed brass
ENCLOSURE • CURVED

A curved, arched brass-framed enclosure — seamless and sculptural, the glass bent to architecture. The flagship, and the top of the program.

À la carte — the commission

The Crittall grid and the Casa arch are made to measure — sized per opening, in your warm-metal finish, fabricated and fitted through trade.

LIGHT • PENDANTS

The quiet pendant.

A slip-cast bone-ceramic dome on warm spun brass with an opal diffuser — the entry-level Japandi note, over island or entry.

Kanso

SIMPLICITY • INCLUDED

CEDAR & MOSS

THE ROOM • THE HEARTH

A ribbon of fire.

A flueless frameless firebox that drops into a troweled-plaster wall with zero hardware showing — a clean linear ribbon, no mantel.

Kanso

SIMPLICITY • INCLUDED

ECOSMART FIRE

Flex 32SS Firebox

316 stainless • ethanol

A flueless frameless insert in troweled plaster, zero hardware — a clean linear ribbon, no mantel.

REFINEMENT • UPGRADE

ECOSMART FIRE Flex 50SS Firebox

316 stainless • ethanol

A wider ribbon for a full-height plaster surround — no flue, no gas line, pure architecture.

FINISHES

Stainless

Black Steel

Frameless

ELEMENT4 Modore 100 Linear Gas

Frameless glass • 36"

True frameless direct-vent gas — flush glass disappears into stone, a warm full-width burner.

Frameless

THE ROOM • THE HEARTH

Fire as architecture.

A six-foot fire ribbon, a full-depth double burner, and a see-through fire wall — the room's anchor.

Miyabi

REFINED ELEGANCE • COMMISSION

SPARK MODERN FIRES Fire Ribbon 19W 73"

Stainless • direct-vent

The signature six-foot Fire Ribbon — a single pure line of flame, the definitive linear statement.

FINISHES

Stainless

Black Steel

Frameless

ELEMENT4 Modore 185 Linear Gas

Frameless • 72" double

A full-width, full-depth double burner behind frameless glass — an architectural slot of fire.

FINISHES

Stainless

Black Steel

Frameless

ORTAL Clear See-Through

Frameless • direct-vent gas

A frameless see-through ribbon set into a partition — one line of fire read from two rooms at once. The fireplace as a room divider, direct-vent and built for the units.

Frameless

À la carte — the commission

The firebox is priced before its surround — budget a separate commission for the full-height stone or hand-troweled-plaster surround, the element that makes the fire read as Japandi × Sonoran.

BEYOND THE BASE

The Miyabi commissions.

Added to any Miyabi residence, à la carte. Scoped and priced privately with the design studio.

The Karesansui Courtyard

A private dry garden — raked decomposed granite, placed basalt, an agave; Camelback borrowed beyond (shakkei).

The Kintsugi Seam

The one precious line — a gold-veined book-matched stone, or brass inlaid into a stone threshold.

The HyggeKrog

A window-seat reading nook by the hearth — wool, sheepskin, and warm low light.

The Wine Room

A climate cellar or a glass wine wall in the living space.

The Spa

Steam shower, hand-carved stone ofuro, heated stone floors.

The Light Commission

A bespoke fixture — alabaster, washi or bronze — made for your room.

THE APPOINTMENT

Selected once, carried through all twenty-two.

Every finish is specified by our design team and procured through the Lief studio and its trade partners. Slabs, tiles and metal samples are approved in person at your selections appointment. We hold the relationships so you do not have to.
